Maximum Apocalypse is a cooperative roguelike adventure game for 1-6 players. In Maximum Apocalypse, civilization has already fallen. The players are survivors of the apocalypse whose mission is to survive the hostile landscape. The game map

is randomly generated and different every time that you play. On each turn, a player can use up to four actions to explore the map, play cards, equip weapons, scavenge for resources, draw cards, or battle off monsters.

Picking a unique survivor class within the group, players must plan their strategy while leaning on their character's strengths in order to defeat monsters and avoid starvation. For example, the Fireman is deadly up close with his ax; meanwhile the stealthy Hunter is great at scouting the map and avoiding traps. *Can you survive the apocalypse?*

Maximum Apocalypse: Gothic Horrors is a cooperative roguelike adventure game set amid the backdrop of different supernatural and horror themed apocalypses. The Ronin is a new close range combatant with dual purpose cards

that change based on her combat stance; meanwhile the Priest is a persistent believer in humanity who offers protection from unspeakable evils — *but roaming monsters are gathering quickly and time is running out.*

Maximum Apocalypse: Wasted Wilds features the same compelling fully cooperative survival gameplay in a post-apocalyptic world. Players assume the roles of a hardened survivor of the apocalypse and work together to fight through

two brand new campaigns with a lot of new twists around exposure to the elements and interactions with other groups of survivors. Each mission is filled with adventure, exploration, survival and strategic decisions. *Will you make it through?*

Product Title:

Maximum Apocalypse 2nd Edition

List Price: \$85.00
